

Kolorscape® Lemon Fizz™ Rose

Rosa 'KORfizzlem'

Height: 4 feet

Spread: 3 feet

Sunlight: ☉

Hardiness Zone: 5b

Group/Class: Kolorscape Series Shrub Rose

Description:

This selection features brilliant lemon yellow non-fading flowers over glossy green foliage; long lasting blooms give a constant show all season in the garden or along borders; heat and disease tolerant; no deadheading needed; excellent cut flowers

Ornamental Features

Kolorscape Lemon Fizz Rose features showy lightly-scented semi-double lemon yellow flowers with gold eyes at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Kolorscape Lemon Fizz Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Kolorscape Lemon Fizz Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Kolorscape Lemon Fizz Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
