

Lacy Doily Daylily
Hemerocallis 'Lacy Doily'

Plant Height: 18 inches

Flower Height: 24 inches

Spread: 24 inches

Spacing: 18 inches

Sunlight: ☉ ●

Hardiness Zone: 3a

Description:

Small peachy colored double flowers with yellow throat;
midseason rebloomer; evergreen

Ornamental Features

Lacy Doily Daylily features bold double peach trumpet-shaped flowers with yellow throats at the ends of the stems from mid to late summer. The flowers are excellent for cutting. Its grassy leaves remain green in color throughout the year.

Landscape Attributes

Lacy Doily Daylily is an herbaceous evergreen perennial with tall flower stalks held atop a low mound of foliage. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a relatively low maintenance plant, and is best cleaned up in early spring before it resumes active growth for the season. It is a good choice for attracting butterflies to your yard. It has no significant negative characteristics.

Lacy Doily Daylily is recommended for the following landscape applications;

- Mass Planting
- General Garden Use
- Groundcover

Planting & Growing

Lacy Doily Daylily will grow to be about 18 inches tall at maturity extending to 24 inches tall with the flowers, with a spread of 24 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 18 inches apart. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. As an evergreen perennial, this plant will typically keep its form and foliage year-round.

This plant does best in full sun to partial shade. It is very adaptable to both dry and moist locations, and should do just fine under typical garden conditions. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.
